The Insurer will pay the Insured as indemnity in consequence of Business Interruption for loss of Gross Profit due to

- A** Reduction in Turnover, and
- B** Increase in Cost of Working.

Reduction in Turnover means the sum produced by applying the Rate of Gross Profit to the amount by which the Turnover during the Indemnity Period falls short of the Standard Turnover.

6 New Business

If the Business is in its first year of trading during the first Period of Insurance, and an Event occurs before completion of such first Period of Insurance, Rate of Gross Profit, Annual Turnover and Standard Turnover shall mean the following.

If following an Event giving rise to a claim under this Section the Insured shall hold a salvage sale during the Indemnity Period, the definition of Reduction in Turnover in the Basis of Settlement of the Insurance for any item of Gross Profit shall for the purpose of such claims be amended as follows:

A Reduction in Turnover means: the sum produced by applying the Rate of Gross Profit to the amount by which the Turnover during the Indemnity Period (less the Turnover relating to the period of the salvage sale) shall in consequence of the Event fall short of the Standard Turnover from which sum shall be deducted the Gross Profit actually earned during the period of the salvage sale.
