

Allianz Insurance plc

Passive Fire Protection (PFP)

From Hilti GB Ltd

PFPs contain fires or slow the spread, by using fire-resistant walls, floors and doors.

£1bn 

In 2014 it was estimated £1 billion worth of insurance claims for fire-related property damage.*

Your Special Offer

As an Allianz customer you have access to the following services:

- Impartial advice available 24 hours a day
- FREE application surveys and advice on fire risk assessments
- Priority enquiry handling and discounted rates on products and installations.

Product Range

We've partnered with Hilti, that provide a range of firestop systems solutions for virtually any opening or space which fire, heat or smoke might pass through.

Hilti supports the whole fire stopping process, from creating project specifications, installation, to assisting with your final inspection. It offers quality products and installation, and it adopts accreditation schemes, such as FIRAS and LPCB.
