

Physical Security Products

From Insafe

Not only does keeping your property, stock and cash secure prevent it from being stolen, it can also reduce the risk of violence towards your employees by deterring potential thieves.

Businesses that fail to protect their employees from violent attacks can face huge fines.*

Your exclusive discount

As an Allianz customer, you have access to:

- an **exclusive 15% discount** on the products described in this document
- a range of safes tested and certified by the independent testing house LPCB, plus approved by the AIS – Association of Insurance Surveyors
- a safe identification service to obtain the cash or jewellery cover on your current safe.

Product Range

We've partnered with Insafe, who specialise in the supply of cash safes, security cabinets, vaults and strong rooms, supported by a nationwide network of safe engineers and master locksmiths, available 24/7/365. Safes are designed not only to prevent theft of the contents, but also to protect them against fire.

Insafe S2 Safe Range – £4,000 cash / £40,000 jewellery. Designed for domestic and light commercial use, and tested in accordance with EN14450 by the LPCB.

*Source: Health and Safety at work website, 2014

An estimated 698,000 incidents of violence at work according to the 2015/16 Crime Survey for England and Wales.*

Insafe Paramount Safes – £5,000 cash / £50,000 jewellery. Ideal for slightly higher domestic and commercial use, with 30 minute fire resistance.

Insafe EuroGrade – Grades 0-6 available with cash ratings from £6,000-£150,000 / jewellery ratings from £60,000-£1.5million. LPCB Certified with an added fire resistance up to 90 minutes.

Bespoke Safes – Insafe's own UK brand design and manufacturing facility allows tailor made specials for any type of safe to order.

From dimensions to colour, you can create a totally bespoke safe. Added options available include deposit systems, internal storage, power supply and watch winders.
