Security and Management For Keys

From Securikey Ltd

Protect the keys of your business with a key safe or cabinet. Have peace of mind that your assets are safe and secure.

Burglary committed with easy entry is the most costly. A burglar that gains access with a key will stay for longer.*

Your Special Offer

As an Allianz customer, you can keep your property, equipment, stock and cash safe from thieves with:

- a **discount of 20%** on a selection of key cabinets
- full technical support from experienced engineers.

Product Range

Securikey is one of the leading suppliers of keys, cash, data and document cabinets and safes in the UK. They work with leading international manufacturers of physical security products to ensure the solutions provided are the latest and most secure available.

Bronze – wall mounted units suitable for:

- holding 20 to 600 keys
- contents for which security is not the paramount issue
- contents control and auditing
- fast access.

Silver – units with all the features of Bronze range but in addition:

- are manufactured from 2.5mm steel plate
- use a Euro profile locking mechanism and are far heavier in construction, enabling the unit to be integrated within existing master key suites in the building.

Gold – floor standing safes that:

- hold 960, 1560 or 2160 keys
- have key panels which are mounted on easy slide telescopic runners
- are independently tested and certified to EN 14450 S1 by VdS test house
- have double wall construction with fire resistant fill to DIN 4102
- have a heavy duty 3-way locking mechanism
- have a CEN/VdS approved double bitted lock
- have optional combination and electronic locking.
