

# Business Continuity

From Glen Abbot

**Whether insured or not, fire, flood or a system failure can cause significant disruption to your business. Having a good business continuity plan in place will help give you peace of mind.**

**80% of firms hit by a major disaster go out of business and many that do recover never return to their previous stature.\***

## Your Special Offer

**As an Allianz customer, you have access to the following business continuity services:**

- a **FREE** ten minute telephone consultation on any matter relating to business continuity
- **20% off** a unique suite of business continuity planning packages
- **20% off** a review of your supply chain.

## Product Range

We have partnered with Glen Abbot, one of the UK's leading business continuity consultancy firms, who provide expertise in all aspects of business continuity management.

**Business Continuity Start-Up** – a simple, easy to complete series of templates to help you develop your own business continuity plan. Developed for small businesses, these templates highlight the critical activities, dependencies and risks within your business. A recovery plan will advise you on what to do should the unthinkable happen. This service is available to you at an exclusive discounted price of £149.

**Business Continuity Added** – a period of consultancy support in addition to your start up pack, should you require a more advanced plan. This service is available at your exclusive discounted price of £499.

**Business Continuity Complete** – complete access to Glen Abbot's modular business continuity portfolio for the more complex organisation. You can choose from a full plan to help with the analysis stage, or a training and testing programme, depending on your business needs. Consultancy fees are available at an exclusive discounted price from £637.50 per day.

Business continuity templates relating to these services can be accessed via the Glen Abbot website:

Four out of five business managers who had exercised their business continuity plans said that they identified shortcomings in the plan.\*

## Supply Chain Review

As well as providing robust business continuity plans, Glen Abbot can also assist with supply chain review services.

**Plan Review** – the quickest and most cost effective method is for Glen Abbot to review your suppliers' risks and business continuity documentation. After initial introductions, Glen Abbot will deal directly with your suppliers. A short report will be produced highlighting any risks you should be aware of and any mitigation actions identified. This service is available to you at an exclusive discounted price of £149.

**Detailed Review** – if you're concerned about a particular supplier, Glen Abbot can carry out a detailed review of the supplier's paperwork, followed by a telephone interview with key personnel in the organisation. You will then be given a report stating the level of risk they provide. This service is available to you at an exclusive discounted price of £350.

**Site Visit** – if you have particular concerns about a supplier, Glen Abbot can arrange a site visit where they will physically review the supplier's premises, interview key people and produce a detailed report on the findings. Consultancy fees are available at an exclusive discounted price from £637.50 per day.

**Please note:** prices are subject to change and may vary depending on site specific circumstances. All prices are subject to VAT.

## Contact Information

To receive your Allianz discount, reference **'Allianz'** and provide your Allianz policy number when you contact Glen Abbot.
