

QUICK GUIDE

Renewable Power

Our renewable power policies offer insurance for commercial

operators of solar, wind, hydro

and short term operational

reserve installations (STOR), both during construction and

whilst operational.

Renewable power provides
Construction All Risks and
Operational All Risks cover
alongside a number of optional
covers. When operational we can
combine covers, such as solar
and hydro, under one policy.

Cover includes

Construction All Risks - cover that may be selected:

- Contract works up to the contract value or limit of liability stated in the schedule:
 - professional fees
 - breakdown or explosion
 - offsite storage
 - debris removal and protection.
- · Owned plant and machinery:
 - damage to security devices
 - loss of keys.
- Hired in plant
- Contractors JCT 6.5.1
- Terrorism
- Delay in start-up
- Public liability up to £5m.

Operational All Risks - cover provided as standard:

- Alterations, additions and improvements - up to £1m per period of insurance (£250,000 at any one premises).
- Removal of debris up to £50,000.
- Professional fees up to £50,000.
- Temporary removal up to £100,000.
- Fire extinguishing up to £10,000.
- Maintaining machinery guarantees - up to £25,000.
- Additional costs for repairs

 up to £25,000.

Operational All Risks - optional cover that may be selected:

- Terrorism
- · Business interruption
- Public and products liability
 up to £5m.
- Commercial Legal Expenses provides up to £100,000 for any one event.

For Intermediary Use

QUICK GUIDE

- Employers' Liability legal liability protection for accidental injury and disease to employees.
- Directors & Officers provides financial protection for directors in terms of their personal liability when managing their company.

Appetite

Our renewable products are targeted at operators of:

- STOR commercial installations, with a power production (total capacity per unit) of one megawatt or above.
- Solar ground-mounted solar photovoltaic installations.
- Wind onshore wind installations only, with a power production (total capacity per unit) of one megawatt or above.
- Hydro run-of-river hydro power installations only, with a power production (total capacity per unit) of between 500 kilowatts and 10 megawatts.

Claims Service

Our fast, fair and flexible claims service, delivered by experts provides:

- Dedicated engineering claims handler - support from our experienced and expert engineering team.
- Claims relationship managers access to a dedicated claims expert - larger customers only.

Additional Services

Our additional services can be tailored to help meet your customers individual needs:

- Inspection Services our UKAS
 accredited engineer surveyors have
 the expertise to carry out statutory
 inspections on a range of plant
 and machinery across the UK. Visit.
 allianz.co.uk/InspectionServices.
- Consultancy Services our engineering specialists, supported by a network of business partners, provide a range of services. These include engineering assessments, training and bespoke inspections on a range of power installations.
- Insurance Risk Survey our renewable power loss control engineers provide insurance and liability risk surveys.

- Exclusive Third Party Supplier
 Discounts preferred suppliers
 offering risk management
 solutions relevant to your
 customers sector. Visit: allianz.
 co.uk/risk-management.
- Free Risk Management Support guidance on a range of topics to assist your customers in managing the risks impacting their sector. Visit: allianz.co.uk/risk-management.

Making a claim

Claims can be reported to our specialist teams (9am to 5pm):
