Benefits for Brokers

Risk Management - Samsara's AI in-cab alerts can serve as a prevention tool for common claims causation. A recent Oliver Wyman actuarial data study has shown Samsara's solution can influence a loss cost reduction of over 23%.

Claims - Samsara's real time FNOL and cloud based video platform provide immediate insight and can support effective claims management. No downloading or attaching bulky files, just hyperlink to the insurer or TPA.

Data - Samsara's data suite allows easy export of data in multiple formats. As a broker, this allows you to have more risk insight and effective placement conversations.
