We're the underwriter. This sets us apart from our peers when it comes to customer delivery and means:

We care about our partnership

When it comes to partnerships, there's no one-size-fits-all approach. By taking the time to get to know you, your legal business and your aspirations, we build relationships based on transparency and trust.

We see the big picture, as well as the little details. And we don't take how we work together as given. Instead, we care. Developing and refining what we do as our partnership deepens and ambitions evolve. Aligning our business values and sharing beliefs. We won't always agree but we'll challenge with respect to deliver value for us both. And, ultimately champion the best outcome for you and your customer.

We see the big picture,
as well as the little details.

Fletchers has been working with ALP for the best part of a decade. The support that ALP has given to our business during that time has been unwavering and loyal and based upon foundations of mutual trust and respect. The team at ALP is immensely capable, technical and data focused.

But alongside that, there's emotional intelligence and a genuine commitment to building lasting, trusted relationships. The combination of these qualities is extremely powerful and it's our huge pleasure to work with ALP and count them amongst our most valued partners".
