CYBER SECURITY PERFORMANCE MANAGEMENT

We're proud to be working in partnership with BitSight, a leading security ratings platform*, helping organisations to make data-driven decisions to reduce cyber risk.

**Cyber security
performance
management**

YOUR SPECIAL OFFER

Allianz clients are entitled to a complimentary and exclusive 30-day trial of BitSight's platform**.

WHAT IS BITSIGHT?

Since 2011, BitSight has been providing security ratings services to private and public sector organisations across an array of industries. Their security ratings are generated through the analysis of externally observable data and with this information, organisations can proactively identify, quantify, and manage cyber security risk throughout their ecosystem.

WHO IS BITSIGHT SUITABLE FOR?

BitSight is suitable for clients who want to quantify enterprise security performance, benchmark against competitors and industry, and report the quality of security programs to boards, customers and partners.

* As rated by The Forrester New Wave, Q4 2018

** The services listed are available to you, as an Allianz customer, on a complimentary basis for 30-days. Once your request is submitted via the web form, please wait up to 3-5 business days for a login email from BitSight inviting you into the platform to learn more about your organisation's security rating. Please note that access is subject to change and may vary depending on specific circumstances. During the 14-day trial period, you may engage BitSight directly if you are interested in continuing the service with various SMB focused offerings.

WHAT ARE THE PRODUCTS AND FEATURES?

As part of BitSight's range of Security Performance Management (SPM) solutions, Allianz customers can receive their rating details for 30-days and the following features:

- Quantification of cyber risks via generating ratings and grades
- Indications of vulnerability and recommendations of actions to boost defences

- Benchmarking cyber security performance against their own industries
- Reports to inform Board on security progress
- Complimentary telephone-call within 30 days to discuss and answer any questions about their ratings.

WHAT ARE THE BENEFITS?

The benefits of BitSight's SPM solutions include:

- Assessing relative security performance in context
- Creating informed improvement plans
- Effectively allocating limited resources
- Efficient prioritisation of security efforts
- Measurement and reporting of outcomes.
